

CALIN MANUEL CUTEAN

Web Developer with Audio Production Background

PROFILE

Hi, I'm Mannie! I'm a Waterford, Michigan based web developer. I began my career in audio where I developed a passion for detail and delivering quality results. Now I'm bringing that passion to the world of web development.

EDUCATION

Thinkful Software/Web Engineering Bootcamp July 2020–Present
Studied independently and with a mentor. Learned how to create React based front end clients and how to build RESTful APIs with CRUD operations on servers with Express.

Recording Institute of Detroit January 2018–April 2018
Professional Certificates - Recording Engineer Program and Production Program Graduate
Extensive course work in professional mixing & mastering techniques using multiple DAW formats and studio & post production training.

SOFTWARE PROJECTS

EZ-Trakr

Live App: manniecut.github.io/EZ-Trakr/
Repository: github.com/manniecut/EZ-Trakr
Developed an app that keeps track of packages one may have in transit.

Recycl

Live App: recycl.vercel.app
Repository: github.com/manniecut/recycl-client
Developed an app that helps one find places to recycle.

GutHub

Live App: gut-hub.vercel.app
Repository: github.com/manniecut/gut-hub
Developed a recipe book app that allows you to share with other users.

WORK EXPERIENCE

Hungry Monster Records Eastpointe, MI

Lead Engineer and Producer May 2018–Present
Responsible for mixing and mastering most of the commercial tracks. Have done a lot of the recording for many of the tracks. Tracks must get my approval before final release.

Moosejaw Mountaineering Madison Heights, MI

Shipping Department October 2014–Present
Played a role in all parts of the supply chain in Moosejaw's warehouse. Worked on my own on projects as well as in a team setting. Built relationships with my coworkers, supervisors, as well as many others in the company.

The Disc, Ltd. Recording Studio (In-house & Freelance) Eastpointe, MI

Engineer and Producer October 2017–Dec 2020
Recording, production, mixing, and mastering to create professional level tracks that are ready for release for clients based on their technical and creative specifications. Designed midi interfaces for live electronic music performances and had original content used in advertisements.

Four Star Wire and Cable Sterling Heights, MI

Communication Cable Assembly Technician Aug 2017–Feb 2018
This opportunity provided me with in-depth knowledge of signal flow and internals of all kinds of cables. I was in charge of my own department focusing on repairing communication headsets for Delta Airlines.
